

HILL HOUSE
INTERNATIONAL JUNIOR SCHOOL

The Small School Scoop

We have had an exciting week at Small School but we are pleased to say that everything is back to normal. Thank you once again for your understanding.

The children are to be commended on their wonderful behaviour throughout the evacuation of the building on Monday afternoon. All our practise fire drills have paid off, the children knew exactly what to do and were calm and quiet.

We are learning about mini beasts. For the past week we have been watching the transformation of some very tiny caterpillars into some very fat caterpillars. We are looking forward to watching them form their chrysalis and eventually turn into butterflies.

As the weather warms up please put sun cream on your children before sending them into school. The 'once a day' products are very good. If they have a green school sun hat please put that in their school bag for use in the garden and park. If you would like to purchase a green hat these are available from Miss Lang on the door in the mornings for £5.

Please also send the children in with their summer raincoats as showers are unpredictable and we do like to get the children out into the fresh air as much as possible. Please make sure they are named.

As we are beginning to prepare the children for the independence required in Lower School we ask you to leave your children at the front door in the mornings and allow them to enter the building and find their class and peg on their own. On this note Miss Ria Di Giorgi who is Head of Lower School (Year 1), will be on the door every Monday morning to meet you and get to know the children.

We wish you a lovely weekend,

The Small School Team

What we will learn next week:

Phonics

Revise
ear
air

Mathematics

Learning about
doubling/halving
and addition

Topic

Mini beasts

Read
*What the ladybird
heard next*

French

The children are continuing to learn to name fruits and vegetables focusing on saying what they like or do not like: *J'aime ... je n'aime pas*

Health and Hygiene

In Health this week we will be finding out where milk comes from, turning milk into cheese and talking about other products we get from milk. Daisy the cow will be coming to help us if she can get past the lush green grass of Battersea Park.

Swimming

The children are reviewing supine push and glide technique and are learning a new game called "Sharks and Castles".

Gym

The children are starting to revise the games they will be playing on Field Day.

Home Learning

Please send any evidence of WOW moments from home into school, so they can be used for your child's Learning Journey.

What are we eating next week?

Healthy Early Years Partnership
Bronze Award
